- Leading QA testing session with the client (**QA**)

EDUCATION & COURSES

ISART Digital, Game Design & Programming Bachelor - 2015 (3 years)

During thoses 3 years I've learned different programming langages, how to build gamesfrom scratch using engine like Unity, create documents (GDD / TDD) and how to work as a team. I've also learned how to prototype games fast and validate their Game Design efficiency. On my free time I participated is some group project and different jams.
